 Kumbharsl

Summary

Dedicated Flutter Developer with 11 months of experience, including a 6-month internship and 5+ months in a full-time role. Skilled in building responsive Android applications with a focus on seamless API integration, state management, and delivering high-performance user experiences. Proficient in Flutter, Dart, and Firebase.

Experience

- **Flutter Developer**
  Swapra Technologies, Pune
  July 2024 - Present
  - **Project 1: Attendance Management**
    * Developed a cross-platform Attendance Management System using Flutter.
    * Integrated real-time database using Firebase for storing and updating attendance data.
    * Used APIs to generate monthly employee presence data, salary slips, and reports.
    * Implemented user authentication and role-based access for admins and employees.
  - **Project 2: A to Z**
    * Developed a multi-service and product-based application that allows users to buy tickets, buy clothes, buy gas cylinders, and sell tickets, sell clothes, etc.
    * The application supports seven different types of services, with the main focus on apartment entry, chairman entry, and business entry within apartments.
    * Implemented efficient service management and smooth user experience across various functionalities and services.

- **Flutter Developer**
  Biencaps Pvt. Ltd., Pune
  January 2024 - June 2024
  - **Project: Quiz App**
    * Developed a cross-platform quiz app using Flutter to engage users in a learning environment.
    * Integrated Firebase for user authentication and storing quiz results.
    * Utilized local storage for offline functionality and storing quiz progress.
    * Implemented state management using Provider to handle quiz states and transitions.

Education

MSC	**Savitribai Phule Pune University**, Pune, Maharashtra *Master of Science* • GPA: 68.8%	2020 – 2022
BSC	**Savitribai Phule Pune University**, Pune, Maharashtra *Bachelor of Science* • GPA: 63.8%	2017 – 2020

Technologies

Languages: Dart, Python, C++, C

Technologies: Flutter, Firebase, REST APIs, SQLite, Provider, Riverpod, Git, Android Studio, Visual Studio Code, Postman, Docker

Key Features

Key Features:

- **Notifications:** Implemented local and push notifications using Firebase Cloud Messaging (FCM) to keep users informed in real-time.
- **State Management:** Efficient state management using Provider, Riverpod, and GetX for scalable and maintainable code.
- **Payment Integration:** Integrated secure payment gateways like PhonePaySDK for smooth transaction experiences.
- **User-Friendly UI:** Developed intuitive and user-friendly interfaces with Flutter, focusing on enhancing the user experience.
- **Responsive UI:** Built responsive and adaptive UIs using Flutter's layout system to support multiple screen sizes and orientations.
- **API Integration:** Integrated REST APIs and handled network requests to fetch and send data dynamically, ensuring smooth app functionality.
- **Docker:** Utilized Docker for containerizing development environments, ensuring consistent and efficient app deployments.

Certifications

Certifications:

- Certification in Flutter Development - Core2web
- Certification in Python ML Development - Core2web
